

Space Mud

Ingredients:

2 cups white glue
2 cups water at room temperature
1 cup hot water
2 1/2 level tablespoons borax
food coloring

Other things needed:

2 mixing bowls
mixing spoons
gallon ziplock bag

Directions:

1. Combine glue and room-temperature water. Blend thoroughly.
Add food coloring.
2. In larger bowl, combine hot water and borax.
Stirring until borax is completely dissolved.
3. Slowly pour glue mixture into borax mixture, stirring constantly.
Most of the water will absorb, but you may have excess to pour off.
Put into ziplock bag and knead.
